

Communication Memo 20th August 2024:

Fatzer AG acquires Rocky Mountain Lift Services & Supplies Inc. (Rigging Specialties)

To whom it may concern

We are pleased to announce that Fatzer AG has acquired Rocky Mountain Lift Services & Supplies Inc. as of 19th August 2024. This acquisition is part of Fatzer’s North America strategy and plays a key role in its Smart Service offerings. It will enable the company to enhance its local market presence and to provide its customers with key services around transportation ropes and structural ropes.

Rocky Mountain Lift Services & Supplies Inc. provides products & services for rope rigging applications as well as rope installations, magnetic resonance testing (MRT) and maintenance on lift components such as gearboxes, bull wheel bearings and sheaves. The Canmore (Alberta, Canada) based company has over 35 years of experience in the fields of rope installation for ropeways, structural ropes and mining.

Fatzer AG develops and manufactures ropes for ropeways, cable cars and structural applications in Switzerland and supplies its products and services globally. The company looks back on a history of 190 years and is the partner of choice for top-quality ropes and rope-related services.

“We are very pleased to build on a long-lasting relationship and to join forces with Fatzer AG” comments Franz Spichtig, Owner & CEO of Rocky Mountain Lift Services & Supplies Inc.

“Providing great services to our customers is at the core of our business philosophy. In Rocky Mountain Lift Services & Supplies Inc. Fatzer has found the right partner to expand in the key market of North America” explains Martin Bechtold, CEO of Fatzer AG.

The acquisition becomes effective on 19th August 2024. The integration phase will focus on continuing the successful operation of Rocky Mountain Lift Services & Supplies Inc. to provide our customers with the unmatched product and service quality of both Fatzer AG and Rocky Mountain Lift Services & Supplies Inc.
